

A PANGAEA DIGITAL LABS STORY

Meet Pawmail

A warm, friendly email app made just for pet owners — vet reminders, adoption updates, and treat coupons, all in one cozy inbox.

SAY HELLO

Posty, your mail pup

Posty fetches every message, wags at good news, and never loses a letter.

WHAT'S INSIDE

A **cozy** inbox for every pet

Vet Reminders Gentle

nudges for shots,
check-ups, and refills
so nothing slips by.

Adoption Updates

Follow your shelter's
newest friends with
photo-first stories.

Treat Coupons Sniff

out deals from pet
shops, auto-sorted into
a happy folder.

Paw Profiles One tidy

card per pet — weight,
meds, and birthday in a
tap.

HELPFUL TIPS

Get the most out of Pawmail

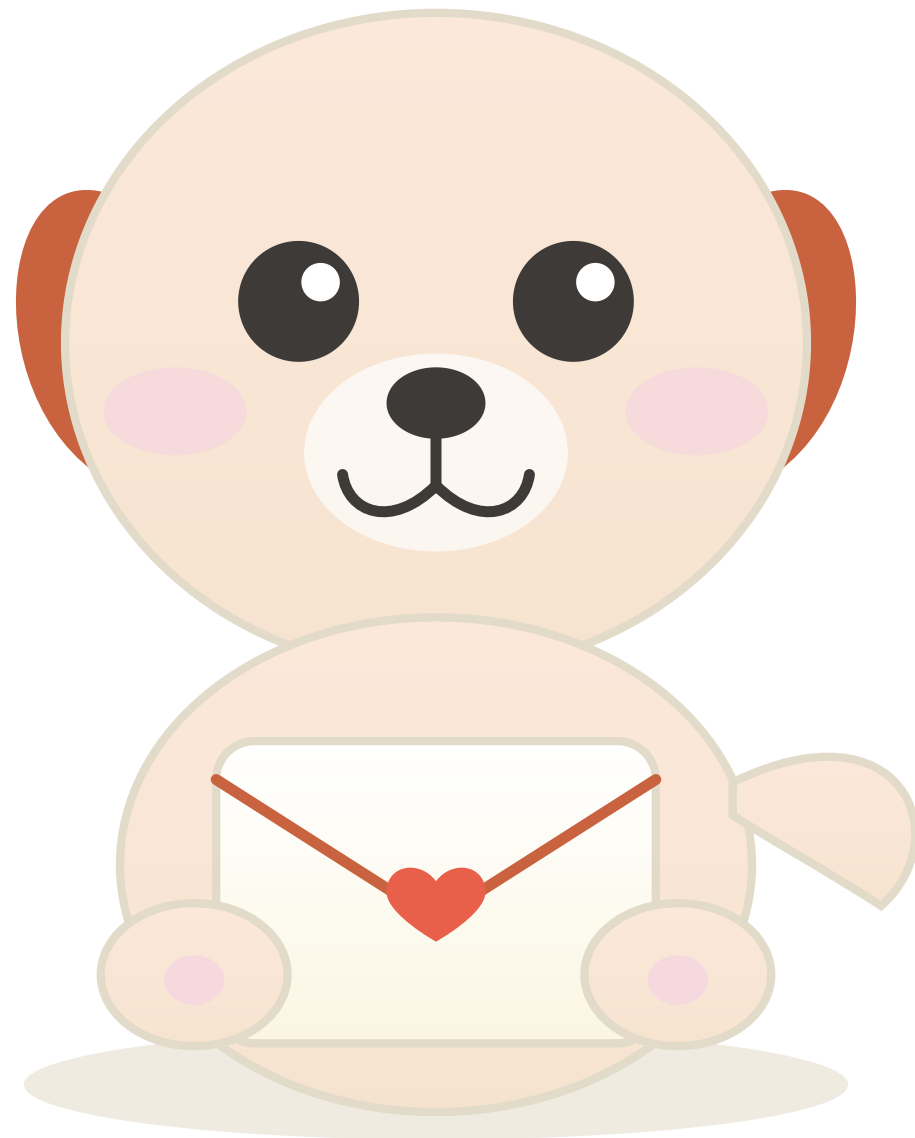

Tip • Pin a Pet Pin a Paw Profile to the top so its reminders always greet you first.

Tip • Treat Folder Star a coupon and Posty tucks it into your *Treats* folder for later.

 Little habits, happy pets — a pinned profile and a starred treat keep the whole pack on track.

READ BEFORE SENDING

A gentle heads-up 🦊

Attachments Photos over 25 MB won't send — shrink that adorable album first.

Reply-All Double-check before barking to the whole litter; some replies are just for the vet.

Caution — once Posty delivers a letter, it can't be un-fetched. Peek before you send!

Send a letter in **one call**

The Pawmail Send API takes a tiny JSON body and hands it to Posty.

```
await pawmail.send({  
  to:      "vet@happytails.pet",  
  from:    "me@pawmail.app",  
  subject: "Bella's checkup 🐕",  
  body:    "See you Tuesday at 3!"  
});  
// → { id: "msg_7a3f", status: "queued" }
```

THE END (FOR NOW)

Happy mail, happy pets 🐾🐾

Pawmail keeps every pet parent close to the ones they love. Fetch a treat, send a hug — Posty's got the rest.
